

Installation Guide

for Surface Pro 7 | 6 | 5

1. Starting at the bottom edge, insert one corner of the tablet into the case followed by the next bottom corner until all 4 corners of the tablet are secured inside the case.
2. **Optional:** When using the Microsoft Type Cover, it must be attached to the tablet prior to being installed into the aXtion case.
3. **Optional:** When using the aXtion Edge Type Cover Protector, install after the Type Cover is connected to the tablet and tablet is in the aXtion case. To remove the Type Cover, the tablet must first be removed from the aXtion case.
4. Any aXtion VESA module from The Joy Factory is compatible with this case.

*Microsoft Type Cover & aXtion Edge Type Cover Protector are not included.

*When Microsoft Type Cover is not used, there is a small gap at the bottom edge of the case. This is normal.
